

INFANTS

very flexible schedule

♥While caring for children one year and younger, it is our goal to follow the schedule you have developed at home. Children will participate in activities aside from times for diapering, feeding, and napping.

♥In the Infant Toddler program, families provide all food for their children, depending upon their stage of growth.

♥Our classroom activities are planned to nurture and support the whole child: spiritual, cognitive, language, social emotional, fine and large motor development.

7:15 ~ 8:30 AM

Children are warmly greeted
